## *Mission Statement*

---

**Mission** – The mission of the Your Marriage Can Succeed arm of An Empowering Word Ministries is to equip couples with the tools necessary to succeed in marriage. We seek to do that by encouraging couples to seek the Lord together, equipping couples to communicate effectively and restoring romantic love.

- **Seek the Lord Together.** Marriage is tough enough by itself. It is even tougher when you do not have a vibrant relationship with the Lord as an individual and as a couple. It is the Lord who has ordained marriage. So why not put our trust in Him to help us succeed in our marriages? Therefore, we encourage couples to worship together, pray together and serve the Lord together.
- **Positive Productive Communication.** Positive Productive Communication is paramount to the success of a marriage. All couples have their fair share of disagreements. However, if we can communicate in a positive productive manner, we can prevent the small disagreements from turning into major battles and the major battles from turning into a stagnant relationship and a stagnant relationship from turning into divorce. Therefore, we seek to equip couples with communication techniques that will help them discuss and resolve their differences productively.

In addition, we seek to help couples communicate in each others love language. Love is a wonderful thing if shared properly. Unfortunately, there are so many couples who are not effectively sharing their love for one another. He loves her and she loves him but that love is not being conveyed to one another in a manner in which it can be received. Through our seminars and couple's outings, we seek to help couples communicate with one another lovingly.

- **Restoring Romantic Love.** For so many couples, poor communication, unresolved issues, children, careers and ministry has robbed their relationship of romantic love. Their marriage has become a series of business transactions. We seek to restore the zest of the relationship to the dating and honeymoon days through positive productive communication, interactive exercises, music and quarterly functions.

**Mission Implementation.** In order to accomplish the above goals, we will conduct relationship seminars, host quarterly couple's night out functions and write encouraging but challenging weekly blogs.
